Dwayne Hay Hockey

PLAYING CAREER:

12 years professional hockey, drafted 43rd overall in 1995 to the Washington Capitals, played for NHL franchises Washington, Calgary, Tampa, Florida, World Junior Champion team Canada 1997.

PLAYER DEVELOPMENT CAREER:

16 years and 10,000 plus hrs on player mentoring and development for all ages from beginner to active NHL players, working one on one, small groups, camps and team training both on and off the ice.

My idea of development is working on the person as much or more than the athlete, build the person's confidence and watch the possibilities be endless, kids and players maximize development and potential when they feel like the best version of themselves, safe and feel that someone is always in the corner with them. Some of the things I teach the athletes are how to self talk/motivate within, speak to oneself thru the drills, use wording and thoughts that speed up the action and strategy to complete the drill or have success in a game situational position. What I've learnt over time coaching is you need to be able to coach to the player how they best learn and receive information or instruction, they all learn differently and I love the challenge as a coach to make adjustments to better present what you need from them and what they need from themselves to have more team and personal success. Lastly, I believe in simply Doing the work, put in the work and reps and get more results, I find this to be the absolute game changer over all the other things in hockey.

Offering, Individual Skill Development, Team Skill Development, Player Analysis, Team Analysis, Dry Land and off ice training.

BK Hockey - Development Partner Profile

Bio

Steve Baek is the Founder and Head Instructor of BK Hockey, a global elite hockey training program established in 2012. With over 20 years of coaching and player development experience across Canada, Europe and Asia, Steve has trained players at every level from grassroots to elite. His approach combines advanced skating and skill development with a focus on game awareness, discipline, and long-term player growth.

Steve has led numerous international camps, including programs in Canada, Asia, and Europe, and continues to build bridges for players to gain both cultural and competitive hockey experiences worldwide.

BK Hockey provides professional, consistent, and high-quality training that supports both the player and the team.

Snipe Academy:

London's premier hockey training facility, offering a wide range of programs at our headquarters on Hyde Park Rd as well as at arenas throughout the Greater London Area and beyond. We proudly offer individual, group and team development training for both players and goalies of all ages and skill levels. In addition, our headquarters is also the home of The ODR and RapidShot (a batting cage for hockey).

We are a team of approximately 25 current and retired players with a shared goal of developing hockey skills through engagement, encouragement, correction, communication, and fun. Additionally, all of our on-ice coaches are OHF third party instructor certified.

Supreme Hockey

Supreme Hockey is led by **Ethan Lamoureux, Tom Jobson, and Brennan Feasey**, each bringing a high pedigree of hockey knowledge and experience both as players and coaches. Collectively, our team specializes in skating, skill development, playmaking, scoring, forward and defensive training.

At Supreme Hockey, we provide **progressive, high-tempo, and detail-oriented training** designed to elevate players' skating, skills, and overall hockey IQ. Along with individual player development, we work with many teams to build skills and chemistry among players, incorporating **team drills and team building** into our programs to strengthen group performance on the ice.

We currently operate development programs, skills sessions, and seasonal camps across the region and work with players from grassroots to elite levels preparing for junior and beyond. We would be excited to bring our knowledge and proven development structure to the Coyotes as part of your approved development partner network.

Beyond team training, we also offer a wide variety of programming, including **individual training, small group training, power skating, skills and drills sessions, forward- and defense-specific training, shooting programs, PD Day camps, Christmas camps, March Break camps, and summer camps.**

ELITE CANADIAN GOALTENDING

Jason Van Spronsen is a full-time goalie coach whose passion is coaching young athletes to become exceptional goalies and to watch them grow into well-rounded individuals both on and off the ice.

Team Practices:

One of our coaches can come help you out at your practices to work with your goalies 1-on-1 or in a group setting with the whole team. We can also help your coaches by giving them tips on how to run a goalie friendly practice so that they get just as much out of it as the rest of the team.

Association Clinics & Development:

We can provide a wide range of development for your association, such as goalie clinics, classroom sessions, and Coaching clinics. We regularly run goalie clinics for associations throughout the season so that goalies get some goalie specific practice that they may not regularly receive during their team practices. Jason is Hockey Canada Certified to provide Level 1 Goalie Coaching Clinics for associations looking to help their coaches gain a better understanding of the goaltending position.

Game Evaluations:

We will come watch you play and take notes on your performance including, the things you did well, the things you need to improve on, how each goal was scored and your personal stats for the game. Game evaluations are an excellent compliment to private lessons as they allow us to see how you play and customize your lessons accordingly.

Video Analysis:

Similar to game evaluations, we can analyze full games or clips to gather information that can be used to improve your game. Video analysis can also help us to determine what to work on during your private lessons and practice visits.
